

# CAPABILITY STATEMENT

Engineering | Advanced Manufacturing | Repair | E-Mobility

## Over 50 Years of Engineering Excellence

Proudly based in **South Australia**, Aldom Transport Engineering delivers **custom-built vehicle solutions** for Australia's most demanding industries, including **Defence, Motorsport, Emergency Services, Logistics, Construction** and **Mining**.

With in-house engineering, manufacturing, fabrication and repair, we provide **end-to-end solutions** that are **agile, reliable, and compliant** with the **highest industry standards**. Our **proven capability supports projects of all sizes**, from bespoke builds to major infrastructure projects.

We are leaders in **E-Mobility** and **Energy Management innovations**, supporting Australia's transition to cleaner, more **sustainable transport solutions**.

## OUR SERVICES

- ✓ **Design & Engineering**  
CAD design, prototyping, and compliance support
- ✓ **Manufacturing & Fabrication**  
Certified welding using premium materials
- ✓ **Repairs & Modifications**  
Fast, durable solutions
- ✓ **Lifecycle Support**  
Ongoing maintenance and parts replacement

## INDUSTRY EXPERTISE

- ✓ Logistics & Freight
- ✓ Mining & Resources
- ✓ Defence & Government
- ✓ Emergency Services
- ✓ Motorsport & Specialised Vehicles

**WE OFFER BEST SOLUTIONS**

## OUR CAPABILITIES

- **Purpose-built Tipplers** – From fully customised builds with cleanskin or dropside options
- **Urban Delivery Vehicles** – Dry freight, refrigerated vans, trays & compact trucks
- **Plant or Long-Haul Fleet Trailers** – Built to specification
- **Remote/Off-Road Builds** – For mining & exploration
- **Body Fit-Outs & Access Systems** – Body changeovers & internal fit-outs, towbars, tailgates, ramps & tool lockers
- **Repairs, Modifications & Fit-Outs** – Body repairs, structural improvements, insurance and accident recovery

## WHY CHOOSE US

- ✓ 50+ years of proven success
- ✓ In-house sales, design, engineering, manufacturing, fabrication & repair
- ✓ Agile, responsive project delivery
- ✓ Driving sustainable solutions towards net zero
- ✓ Expert compliance with industry regulations
- ✓ Ongoing local body repairs & modifications service

## KEY CLIENTS

## CERTIFICATIONS & ACCREDITATIONS

- AS/NZS 1554 Certified Welding Standards
- Recognised Engineering Signatories (RES) for Heavy Vehicle Modifications (DIT-Recognised)
- ADR62 Towbar & Drawbar Design Analysis & Certification
- ROVER Applications & Vehicle Type Approvals (VTA)
- J4 Tipper Body Design Certification
- Approved supplier to Raytheon, DST Group, Thales Australia & BHP
