

**ARROW**  
Five Years Out

### Company Overview

Arrow Electronics Australia / New Zealand is an authorised distributor serving over 250 OEMs with defence-grade, medical, and environmentally compliant electronic components. We enhance applications through strategic resources, including industry-leading engineers and tailored services for sectors such as aerospace, defence, maritime, space, medical, energy, mining, and manufacturing, across Australia and New Zealand.

Our parent company, Arrow Electronics Inc., based in Colorado, operates in 90 countries with 263 sales offices and 41 distribution centres, offering access to over 950 OEMs. Arrow ensures a secure, authentic supply chain by eliminating and mitigating risks from counterfeit parts and delivering authentic, OEM-quality parts to global clients across various industries.

Arrow Electronics Australia / New Zealand aims to support your business growth and technological advancement.
