

## Engineered for the elements

APC Technology, proudly Australian owned and operated, has been at the forefront of ruggedised technology manufacturing for over 40 years. We deliver a comprehensive service, offering end-to-end capabilities from developing solutions based on detailed build specifications to expertly executing build-to-print requirements.

Our expertise extends beyond Defence into commercial industries, such as mining and industrial, providing durable and reliable solutions tailored to withstand the most demanding environments.

## Pioneers of Aerospace electronic ruggedisation

- Display & Panel PC's
- HMI consoles
- Keyboards & trackballs
- Critical communications
- Air portable generators
- Environmental testing of aerospace products for design pre-qualification

## Capabilities

- Design Engineering
- Product Prototyping
- Ruggedised Electronics
- Contract Manufacturing / Build to print
- Environmental Testing
- Sustainment & Obsolescence Management
- Project Management

## Discriminators

- 40 years of proven capability supplying to the aerospace and defence sectors.
- 100% Australian owned & operated; actively sourcing sovereign capability partnerships.
- A state of the art facility of 1650sqm is centrally located
- Extensive in-house environmental test capability
- Rapid adoption of advanced manufacturing techniques and technology.
- Proven design & manufactured solutions to meet MIL-STD and other applicable standards.
- Sustainment and obsolescence management.

## Key Customers
