

Capabilities

- NH₃, CO₂, HFC and HFO system expertise
- Complete project life-cycle
 - Design, manufacture, install and commissioning
- Bespoke refrigeration systems
- Custom controlled environment systems
- Heat load calculations and assessment
- Breakdown servicing and maintenance
- System upgrade and replacement consultancy

Key Customers & Projects

- ASC
 - Collins Class refrigeration equipment upgrade
- Taylor Brothers
 - RAN ship galley refrigeration upgrade
- Boeing Aerostructures Australia
 - Production cooling equipment maintenance
- Daronmont Technologies
 - Shelter Cooling System Development
- Coopers Brewery, Haighs Chocolate, TFI
 - Refrigeration maintenance provider

Expertise & Advantage

- Custom refrigeration solutions and packages
- Whole system lifecycle expertise in-house
- 24/7 national breakdown and service response
- Remote and rural client location support
- Energy efficiency optimisation
- Established Australian supply chain
- Multi-sector experience and expertise

Accreditation & Memberships

YOUR COOLING PARTNER IN DEFENCE

CLIENTS AUSTRALIA WIDE

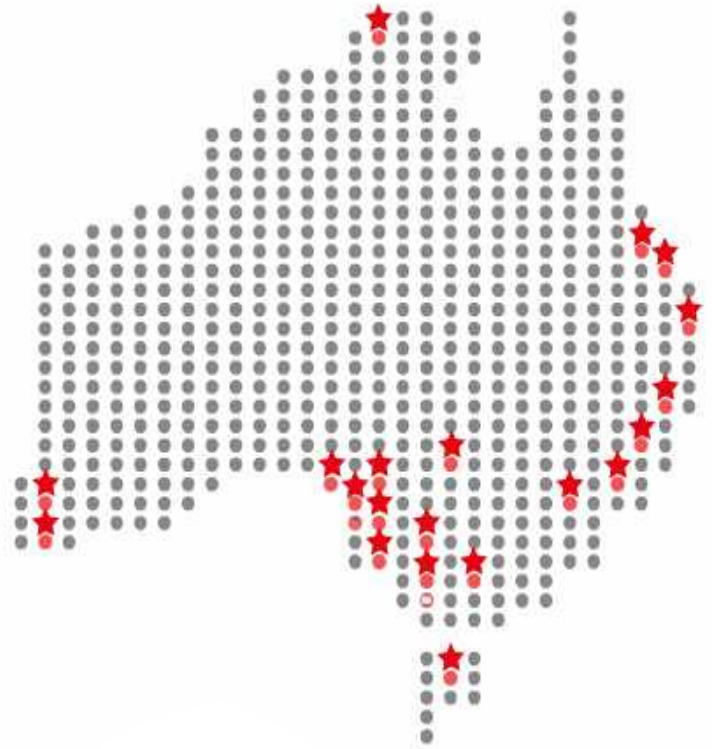

Originally based in Port Adelaide South Australia we now have the capacity to service everywhere from ACT to Fremantle, Darwin to Tasmania and everywhere in between.

We have delivered major projects right across Australia from inner CBD to country towns.

We only rely on the best quality parts from trusted brands like Hasegawa, Alfa Laval, Mycom, GEA, Evapco, Bitzer, Grasso, Carrier, Aermec and BAC.

OUR FABRICATION FACILITY

Our head office in Port Adelaide is home to our first class fabrication facility. We have essential become and in-house EPCM contractor. This means all industrial refrigeration components for every project we complete are integrated in-house by our team. Not off shore.

OVER THREE DECADES OF CONTINUITY.

Back in 1984 the founders focused on building the strength and longevity of the business to provide certainty for its customers. The founder's foresight has resulted in long term customer partnerships for over 30 years. Our company has been built to last, our solutions are always built to last and perform. And our partnerships are built for the long term with mutual trust and understanding.

Your Cooling Partner in Defence.

OUR RESPONSIBILITY

At Cold Logic we are committed to creating quality projects, a safe sustainable environment and an empowering workplace that gives back to the community. We believe this is the true secret to a long lasting successful business and happy team members.

SAFETY

Keeping our staff, our clients and our working environment safe and functional at all times is always front of mind at Cold Logic.

We ensure sound safety practice by following legislatively up to date policies and procedures at all times.

Constant review and in house training of these guidelines ensures we can confidently take responsibility for our safety, the safety of our clients and that of our visitors.

This is rigorously adhered to throughout the entire project stage and beyond to preventative maintenance.

QUALITY

Cold Logic is uncompromising on quality.

In our experience of designing, building and servicing refrigeration plants and equipment across a broad range of industries, any corner cutting will result in costly consequences down the line

We are proud to have the Cold Logic brand in partnership with quality businesses such as Cooper's Brewery, ASC, Woolworths, Haigh's Chocolates, Pernod Ricard, Thomas Foods – the best in their industries.

CONCEPT - DESIGN - INSTALLATION - MAINTENANCE

Our design and preventative maintenance capabilities translate into precise efficient solutions that are of the highest quality and expertly planned based on our customers needs now, and for the future.

We have completed projects for a wide range of industries right across Australia.

Coopers

“ When we moved from the eastern suburbs they built and installed the entire refrigeration plant at Regency Park. Their engineering knowledge is excellent and they have a particularly good track record for problem solving. It's relationships such as these that allow us to successfully concentrate on our core business

- Dr Tim Cooper, Coopers Brewery
