

Defence Teaming Centre

Company Overview

Bringing together Defence Primes, SMEs, academia and professional service providers to grow and develop the Defence sector. The DTC’s role is to represent South Australian (SA) defence industry, and national defence industry that has an interest in SA-based business.

We have three main focus areas in the ever-evolving defence sector:

- AUKUS Pillar I and Pillar II
- Workforce skills and training
- Strengthening the mid-tier of the defence industry

Products

- Connecting members to opportunities in the defence sector
- Workforce skills and training
- Strengthening the mid-tier of the defence industry
- Facilitating industry engagement and collaboration
- AIC policy advice and plan development
- Delivery of defence industry specific leadership programs
- Advocating on behalf of SMEs on defence industry related matters
- Education and awareness to increase defence sector knowledge

Discriminators

- Dedicated team that guides and develops members to navigate, capture and win work in the defence sector
- Ongoing investment into programs that keep members informed and engaged to build stronger and more capable SMEs delivering for Defence
- Our membership community includes Defence, primes, academia and SMEs collaborating to build sovereign capability
- Cost-effective training and development activities including Defence Industry Leadership Program (DILP) and Graduate Learning Program – Defence Industry for graduate engineers

Availability and Support

As a leading industry association, we are continually guiding and supporting defence industry to navigate through the evolving Defence landscape and win work in the defence sector. We do this by providing tailored services including market advice, coaching and professional development programs to create mature defence businesses across Air, Land, Sea, Space and Cyber.
