- **Formula 1 vehicles...**

Our Partners & Suppliers

Key Markets

Resources & OEMs, Defence, Marine, Advanced Manufacturing, Aerospace, Agriculture, Construction, Waste & Recycling, Transport.

Capabilities & Products

Comprehensive Fluid Power and Automation Solutions:

- Integration of mechanical, electrical and machine safety systems

In-House Design, Testing & Service:

- Servicing, test & repair of fluid power systems and components
- Dedicated clean room for product assembly & testing

Fluid System Hose, Tube & Pipe Assemblies:

- Hydraulic hose assembly, testing, supply, traceability, RFID hose tagging and laser engraving
- Customizable tube flaring & de-burring capabilities available
- Tube and pipe manipulation

Fluid Power Product Supply:

- Supply of globally represented products such as pumps, motors, cylinders, valves, accumulators, electronics, filtration, and complete hydraulic power units & systems
