Company Profile

Academy IT is a South Australian-based Registered Training Organisation (RTO 40358) delivering high-quality, instructor-led IT and digital skills training across corporate, government, and defence sectors. The organisation specialises in workforce capability development, offering both nationally recognised qualifications and tailored short-course programs aligned to industry demand, including cybersecurity, cloud computing (AWS and Azure), Microsoft technologies, data analytics, and artificial intelligence. Academy IT differentiates itself through its practical, outcomes-driven approach, focusing on real-world application rather than theoretical learning. Training programs are designed in close consultation with employers to ensure alignment with operational requirements, compliance environments, and evolving technology landscapes. This enables organisations to achieve immediate productivity gains and long-term capability uplift.

With over 15 years of experience, Academy IT supports workforce transformation, operational readiness, and long-term digital resilience. Delivery models are flexible, including face-to-face, virtual, hybrid, metropolitan, regional, and remote formats. Academy IT delivers accredited qualifications and customised short courses for workforce upskilling, pre-employment pathways, and targeted capability uplift initiatives. Practical, hands-on learning supports faster technology adoption and improved productivity outcomes, while robust RTO governance, compliance, and continuous improvement processes support high-quality delivery at scale across multisite organisations.

Proven Delivery

Datacom (DATACOM AUSTRALIA HOLDINGS PTY LIMITED, ABN 81 482 827 052)
Academy IT is a trusted training provider to Datacom, delivering workforce upskilling and pre-employment programs aligned to operational requirements. A trainer is embedded onsite weekly to deliver the Certificate III in Information Technology, enabling employees to gain nationally recognised qualifications while working. Academy IT has also delivered a First Nations-focused Skill Set through the Commonwealth Launch into Work program, preparing candidates for employment. Over recent years, approximately 250 Datacom employees have been trained, demonstrating scalable, outcome-driven delivery.

ReturnToWorkSA (RETURN TO WORK CORPORATION OF SOUTH AUSTRALIA, ABN 83 687 563 395)
Academy IT supports ReturnToWorkSA's data transformation strategy through a tailored and flexible training program aligned to organisational priorities. Delivery includes Excel, PowerPoint, presentation skills, AI (Introduction and Prompt Engineering), Microsoft Project, Snowflake, dimensional data modelling, and SharePoint administration. Academy IT is also establishing an internship pathway through its Professional Year Program, enabling access to emerging IT talent and supporting workforce development. This engagement demonstrates capability in delivering enterprise-level training aligned with long-term transformation objectives.
